

AURA

Case 2: SkillTrack – Digital Portfolio for Students

TEAM: ZAMINA ZARAP
AZOVSKAYA ALISSA
AMIR ZUMRATOVICH
SANZHAR SHAKAYEV
SABRINA SHAKAYEVA

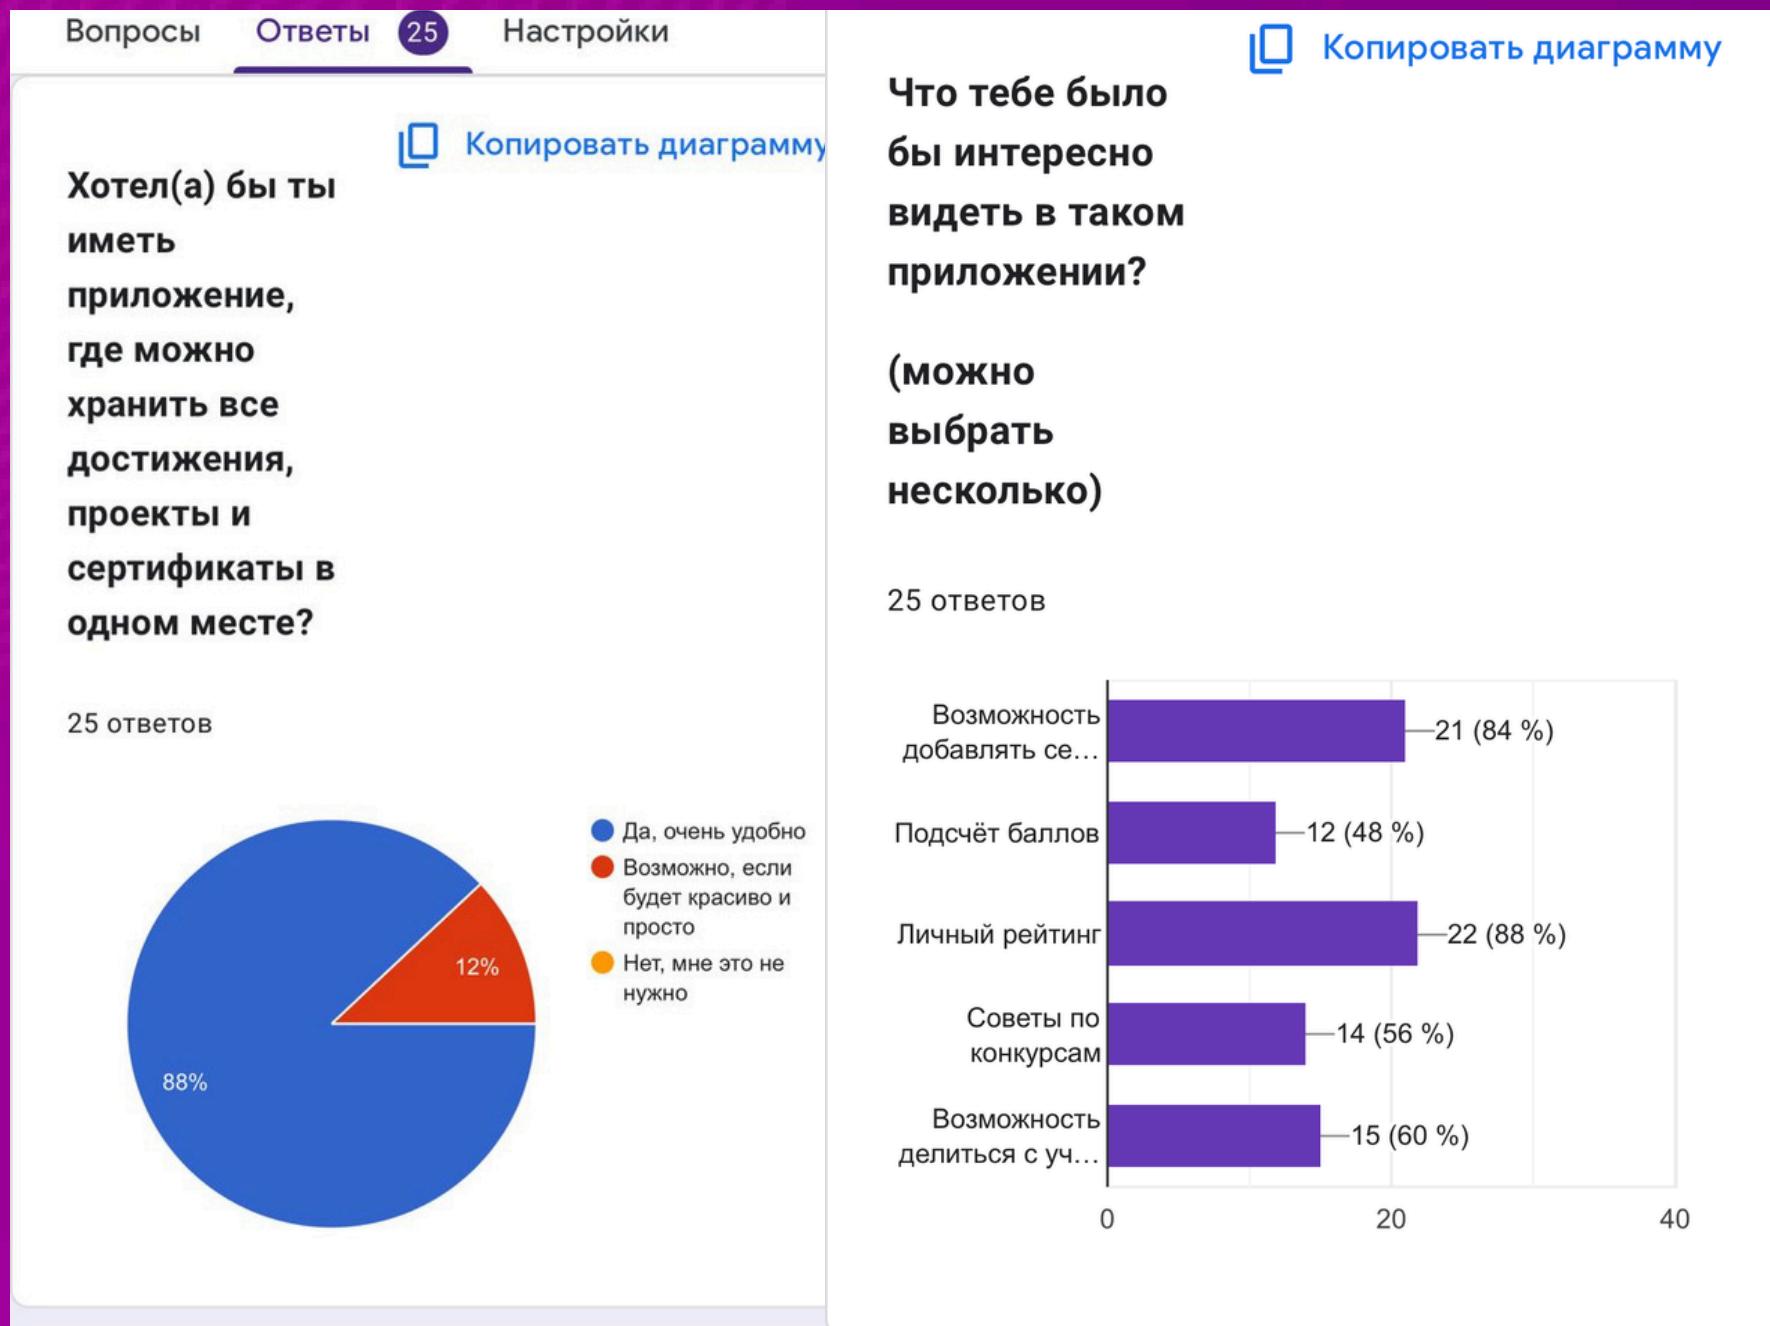

OUR MISSION

We've created prototype of an application for building a personal portfolio a convenient tool that helps you showcase your achievements in a bright and engaging way. Now, each of us can easily collect certificates, awards, and projects all in one place, creating a professional portfolio. Our app is not just a storage space it's a platform that highlights your uniqueness. A simple interface, stylish design, and flexible customization make it easy to stand out. We want your accomplishments to speak for you!

PROBLEM

Students work hard to develop skills and achieve goals, but these successes often go unnoticed or undocumented.

Without a convenient way to demonstrate their progress, their efforts can be undervalued. This is where SkillTrack comes in.

We conducted a survey among students, many of whom noted they needed such an app because they don't know how to properly store their achievements and instead keep them in paper form. Most also noted that the app would be useful if they could add a function for adding certificates and viewing their personal rankings.

hello@reallygreatsite.com

PASSWORD

Sign up

Our application offers a simple and convenient registration process.

A user can create an account in just a few steps by entering:
their name,
email address,
password

We made the process as fast and clear as possible so that everyone can start using the platform without any difficulties

Our app is designed to be equally useful for both students and teachers

The application adapts to the type of school to offer the relevant fields for completion

DASHBOARD

5

The dashboard interface features a large purple header with the word 'DASHBOARD' in white. On the left, a large white number '5' is displayed. Below the header is a white navigation bar with a purple background. It includes a circular icon with 'LA', a message 'Enjoy your journey with LearnAura!', a 'MY PROFILE' section with a user icon, and a blue button with 'start new mission' and a right-pointing arrow. The main content area is titled 'Achievements Overview' in bold white text. It includes a navigation bar with tabs 'All', 'Competitions' (which is selected and highlighted in purple), 'Volunteers', and 'Debates'. Below this, there are three main sections: 'Number of Competitions Performed' (status 'N/A', participant 'Participant'), 'Volunteering' (status 'N/A', participant 'Participant'), and 'Debates' (status 'N/A', participant 'Participant'). At the bottom, there are four boxes for 'Academics': 'GPA', 'SAT', 'IELTS', 'IB DP', 'AP', and 'National test'.

RECOMMENDATION LETTER

Students can automatically generate their portfolio based on achievements and download an authorized recommendation letter from the app.

The system highlights areas for improvement, helping students build a strong and personalized educational roadmap.

ROADMAP

Next 6 months: pilot testing in 3 schools, feedback analysis and UX improvements.

Next 12 months: full-scale launch of the LearnAura mobile app.
