

**FOR THE
MOST...BUT FOR
EVERYONE**

PROBLEM

EVERY YEAR MORE AND MORE STUDENTS QUIT SCHOOL
BECAUSE THEY DON'T LIKE STUDYING, DOING HOMEWORK
AND FOR THIS REASON WE DESIGNED AN APPLICATION
WHICH HELPS YOU WITH HOMEWORK AND TEACHES YOU
HOW TO DO IT AND EXPLAIN DIFFERENT SUBJECTS. WE
CONCEIVED THIS APP ESPECIALLY FOR THE STUDENTS
WITH DSA, ADHD ETC.

THE INNOVATION

We looked for similar app in internet; we found similar apps but they have a problem.

These apps **aren't accessible** to all.

-Our app will use AI to teach you. We want to create an app which is gratis and accessible to everyone.

We want to create a beta version, and meets to raise funds for new upgrades:

- translate in every language
 - access to digital books maps.
