

# BrainStormers

Datorium DigiEduHack 2025

## Group participants:

Pavels Matsiushenkau - *veido programmu*

Ilja Salijevs - *veido video skaidrojumu*

Viktorija Sosnova - *rada idejas, veido programmu*

Nastja Fedina - *veido PDF skaidrojumu*

**Theme of the project:** Reinventing Education: Helping Students Learn, Create & Grow with AI

**The idea of the project:** Create a Telegram Chat Bot that suggests topics for study; The Bot asks questions on the selected topic with links to sources, including videos.

**The aim of the project:** To create an innovative solution that would promote students' desire and motivation to learn through curiosity, freedom and independent thinking.

**Solution to the project:** An alternative way to gain knowledge to age group: 12-16 years in English. Addresses low motivation, boredom, and routine, and encourages independent thinking. Students have the opportunity to quickly find the necessary information and check their knowledge.
