ABOUT US

WELCOME TO QUANTA

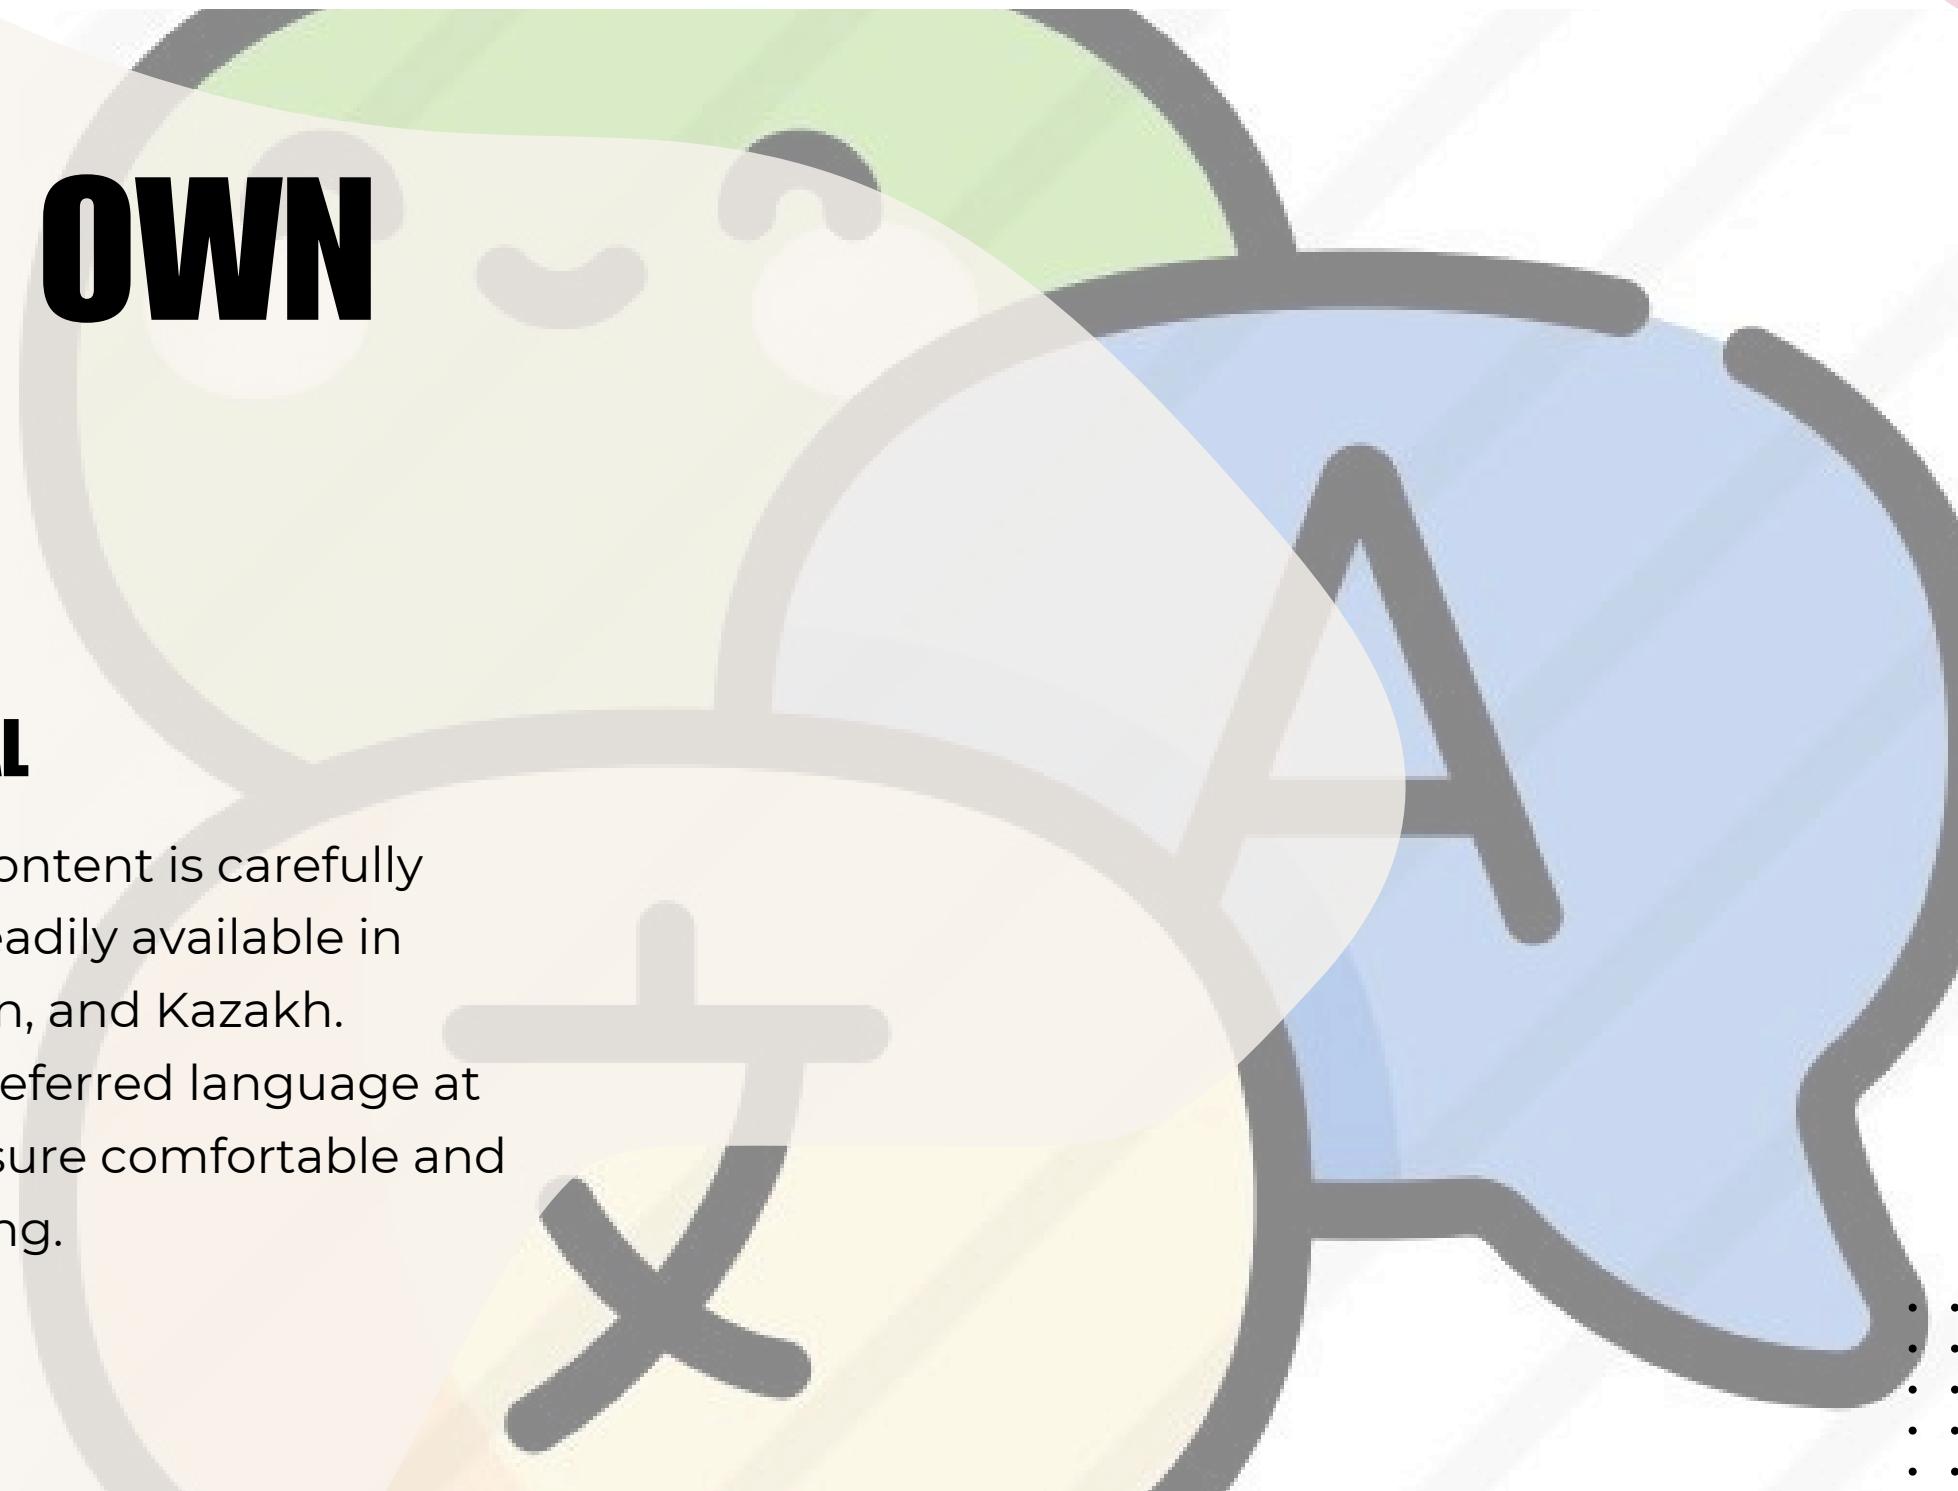

In a world where every click and scroll is a hard decision, knowledge is your superpower. We have reimagined financial literacy, transforming it from a boring subject into an interesting game to students and kids inspired by OYLA

LEARN ON YOUR OWN LANGUAGE

➤ **MULTILINGUAL**

The QUANTA content is carefully adapted and readily available in English, Russian, and Kazakh. Choose your preferred language at any time to ensure comfortable and effective learning.

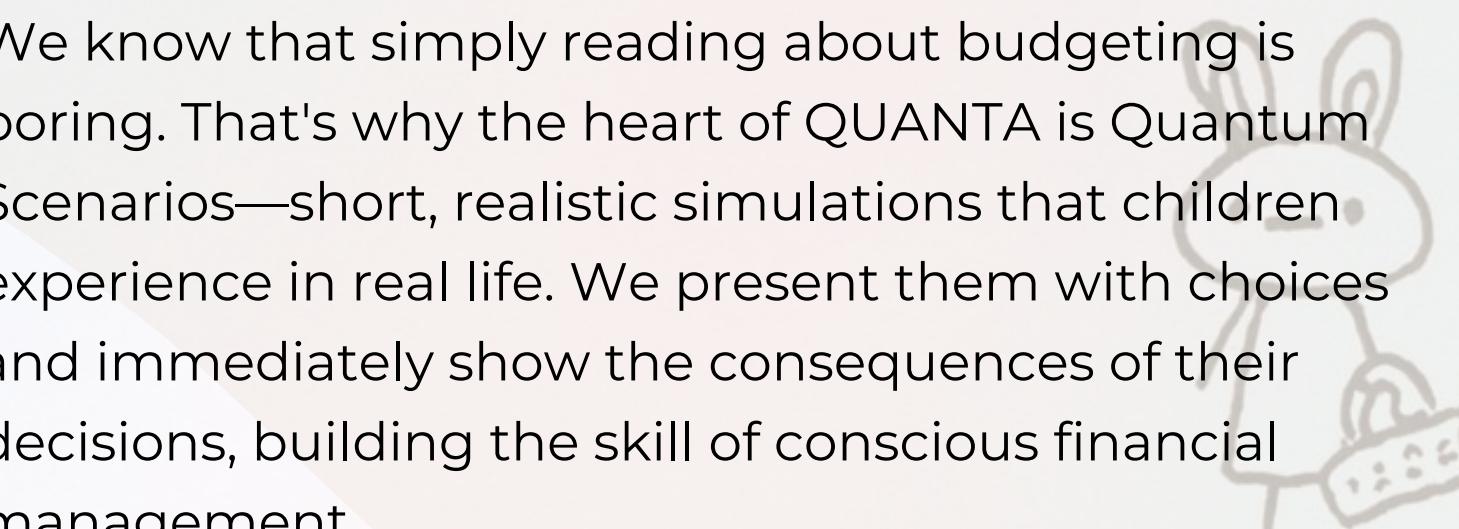

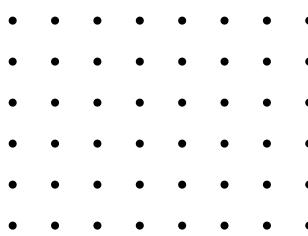

ABOUT GAME

QUANTA SCENARIOS

We know that simply reading about budgeting is boring. That's why the heart of QUANTA is Quantum Scenarios—short, realistic simulations that children experience in real life. We present them with choices and immediately show the consequences of their decisions, building the skill of conscious financial management.

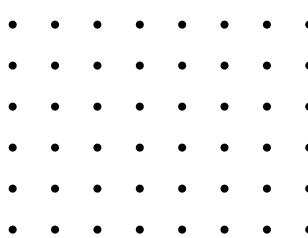

A light gray, semi-transparent illustration of a cartoon-style rabbit facing right, holding a piece of cheese in its front paws. The rabbit has large ears and a small tuft of hair on its head.

GADGETS FOR GROWTH: FROM CONSUMER TO CREATOR

- Today's children spend a lot of time on gadgets. Our goal is not to ban them, but to teach them to use them mindfully and productively. QUANTA transforms gadgets from a source of entertainment into a tool for financial development.
- QUANTA isn't just a platform. It's a gym where children develop their financial intelligence using cutting-edge tools. We're preparing them not for the past, but for the economy of tomorrow.

50%
LEARNING

FRAUD PROTECTED

- Digital Responsibility: Recognizing online fraud and targeted advertising.
- Productive Use: We use cutting-edge technology to help children understand its value, rather than just scroll through their feeds.

PROTECTED
