

DIGI EDU HACK 2025

stituto di Istruzione Secondaria Superiore
Salvatore Trinchese

Almazing presents:

MEDIKNOW AI

European
Commission

01 COMPLEX LEARNING

Some **medical fields** are very **complex** to study and require a long learning curve. Science is **constantly evolving**, and it's essential that **information** be **collected** and made available to **doctors** and **trainees**.

02 Solution: MEDIKNOW AI

What is **Mediknow AI** ?

Mediknow is an **AI medical research** engine that allows **medical students** and **doctors** to access a wide range of information including PDFs, scientific articles and **reports from doctors at work**.

03 TARGET GROUP & IMPACT

STUDENTS & DOCTORS

The target groups are students and doctor of medicine from all over Europe, it's relevant because it helps them exchange informations useful for learning.

04

Innovativeness Sustainability Transferability

It is a **virtual database** that contains **information**, **experiences** and **report** of doctors

Allows doctors and students to **connect** virtually from **anywhere** in Europe

In long term it can **cure** a lot of people and **share** **knowledge**
