DIGI EDU HACK 2025

DIGIntern

Swipe right on your future job
(no awkward first date required)

European Commission

DigiEduHack is an initiative under the Digital Education Action Plan (2021-2027) of the European Commission

Solution Description

- **Connect students with local businesses for real-world projects**
- **Match based on skills, interests, and company needs using AI**

OUR MISSION

- **Connect students with companies that match their interests and values**
- **Help students gain experience and develop soft & digital skills**
- **Support local small businesses with skilled interns**
- **Bridge the gap between education and employment**

DIGI EDU HACK 2025

European Commission

TARGET GROUP

Target Group 1: Students
- **Seeking practical experience**
- **Matching skills and interests**
- **Leveraging school/university opportunities**

Target Group 2: Small Businesses & Startups
- **Seeking skilled interns**
- **Recruiting future talent**
- **Supporting education and reducing youth unemployment**

HOW IT WORKS

- Students create profiles and set preferences
- Companies post internships with requirements
- AI matches students and companies
- Instant recommendations for both sides

European Commission

REVENUES

- Early Funding: Grants, local startup programs, EU youth initiatives, pilot partnerships with schools and companies
- Main Revenue: Business subscriptions for posting and matching interns
- Additional Revenue: Schools/universities pay for premium features; students may opt for paid upgrades (basic service stays free)
- Optional Support: Government funding possible due to valuable youth employment data

European Commission

HOW IT WORKS

- Students: Free basic plan; Plus & Gold with AI tools, priority, and boosts (4.99€–8.99€/month)
- Businesses: Free plan; Plus & Premium with unlimited postings, AI ranking, analytics (19.99€–39.99€/month)
- Schools/Universities: Dashboards, analytics, white-label portals (799€–3,900€/year)
- Extras: In-app boosts, AI features, optional government/NGO funding
- Summary: Subscriptions + upgrades + institutional deals = sustainable revenue
