Olympus

Reach the peak!

Problems

Problem 1

There are not enough problem resources, which cause many students not to get resources that others can get.

Problem 2

Students sometimes wants to ask some questions from teacher, but teacher can sometimes be unavilaible for asking questions.

Solutions

Solution 1

There will be problems from different books or tests.

Solution 2

Students will make virtual rooms in that platform.

Solution 3

Students can ask any question from AI to improve himself or understand the solution.

Business Model

Pro version - 10$

Specific Problem Lists - 5$
