

INNOEDUHACK 2025

 **It's November 14th, 9:00 AM CET.**

You now have 24 hours to develop your solution for the future of education.
You can work **individually** or in teams of **up to 5 people**.

- 👉 Each team member must register separately - [LINK](#)
- 👉 Only one person per team needs to upload the final project.
- 💡 15 prizes of **300 EUR** each will be awarded **per project**, not per person.
- 🕒 Deadline: **November 15th, 9:00 AM CET.**

Please submit a one-page solution (this page + one page for your solution).

TEAM INFORMATION:

Team name: KozMinisters of Education

NO.	NAME & SURNAME	UNIVERSITY If ALK student, include the year of studies, the name of the program and Student ID Number
1	Aleksandra Ryciak	Masters in Management (First Year), ID Number: 55216
2	Sairam Nagesh	Masters in Management (First Year), ID Number: 54907
3	Amisha Mishra	Masters in Management (First Year), ID Number: 54953
4	Jayden McNab	Masters in Management (First Year), ID Number: 56505
5	Rostyslav Pelikhovskyi	Masters in Management (First Year), ID Number: 55213

!! Meta-Category is: **Digital Transformation & AI** – all ideas should address changes driven by digitalisation and new technologies, especially AI.

Select Your Category (choose one):

- ☐ Assessment & Grading – new models for evaluating student performance
- ☐ Teacher Support – tools helping educators deliver engaging classes
- ☐ Student Support – solutions that improve the learning experience

Recommended Solution Template:

- 1. Problem Statement:** One-sentence definition of the problem (the essence).
- 2. AS IS:** Current Situation: Describe the context with data and pain points. Why is solving this problem essential?
- 3. Game Plan:** Your Solution: How do you get there? What's your approach or process?
- 4. Technology (optional):** You don't need to code it! But a mockup or simple sketch of functionalities increases your chances.
- 5. Vision of Success:** How will the user experience change? How will you measure success (KPIs, outcomes)?

Evaluation Criteria

- ✅ Creativity – originality and novelty of the idea
- ✅ Feasibility – practicality and potential for implementation
