OUR
TEAM

We are a group of students from the linguistic school of Salvatore Trinchese in Martano.
Our goal is to propose an app to improve your exhibition skills through tools suitable for all age groups.

Istituto di Istruzione Secondaria Superiore
Salvatore Trinchese

Via prolung. piazza Gramsci - 73025 MARTANO (LE) - Tel. e Fax: 0836 575455

DIGI
EDU
HACK
2024

It is a movement that aims to promote innovation, collaboration and creativity and drive positive change in digital education.

INFO

Our project consists of an app, divided into two steps:
-Learning/preparation quiz;
-oral exposition with AI;
-Final evaluation with various prizes according to the percentage gained.
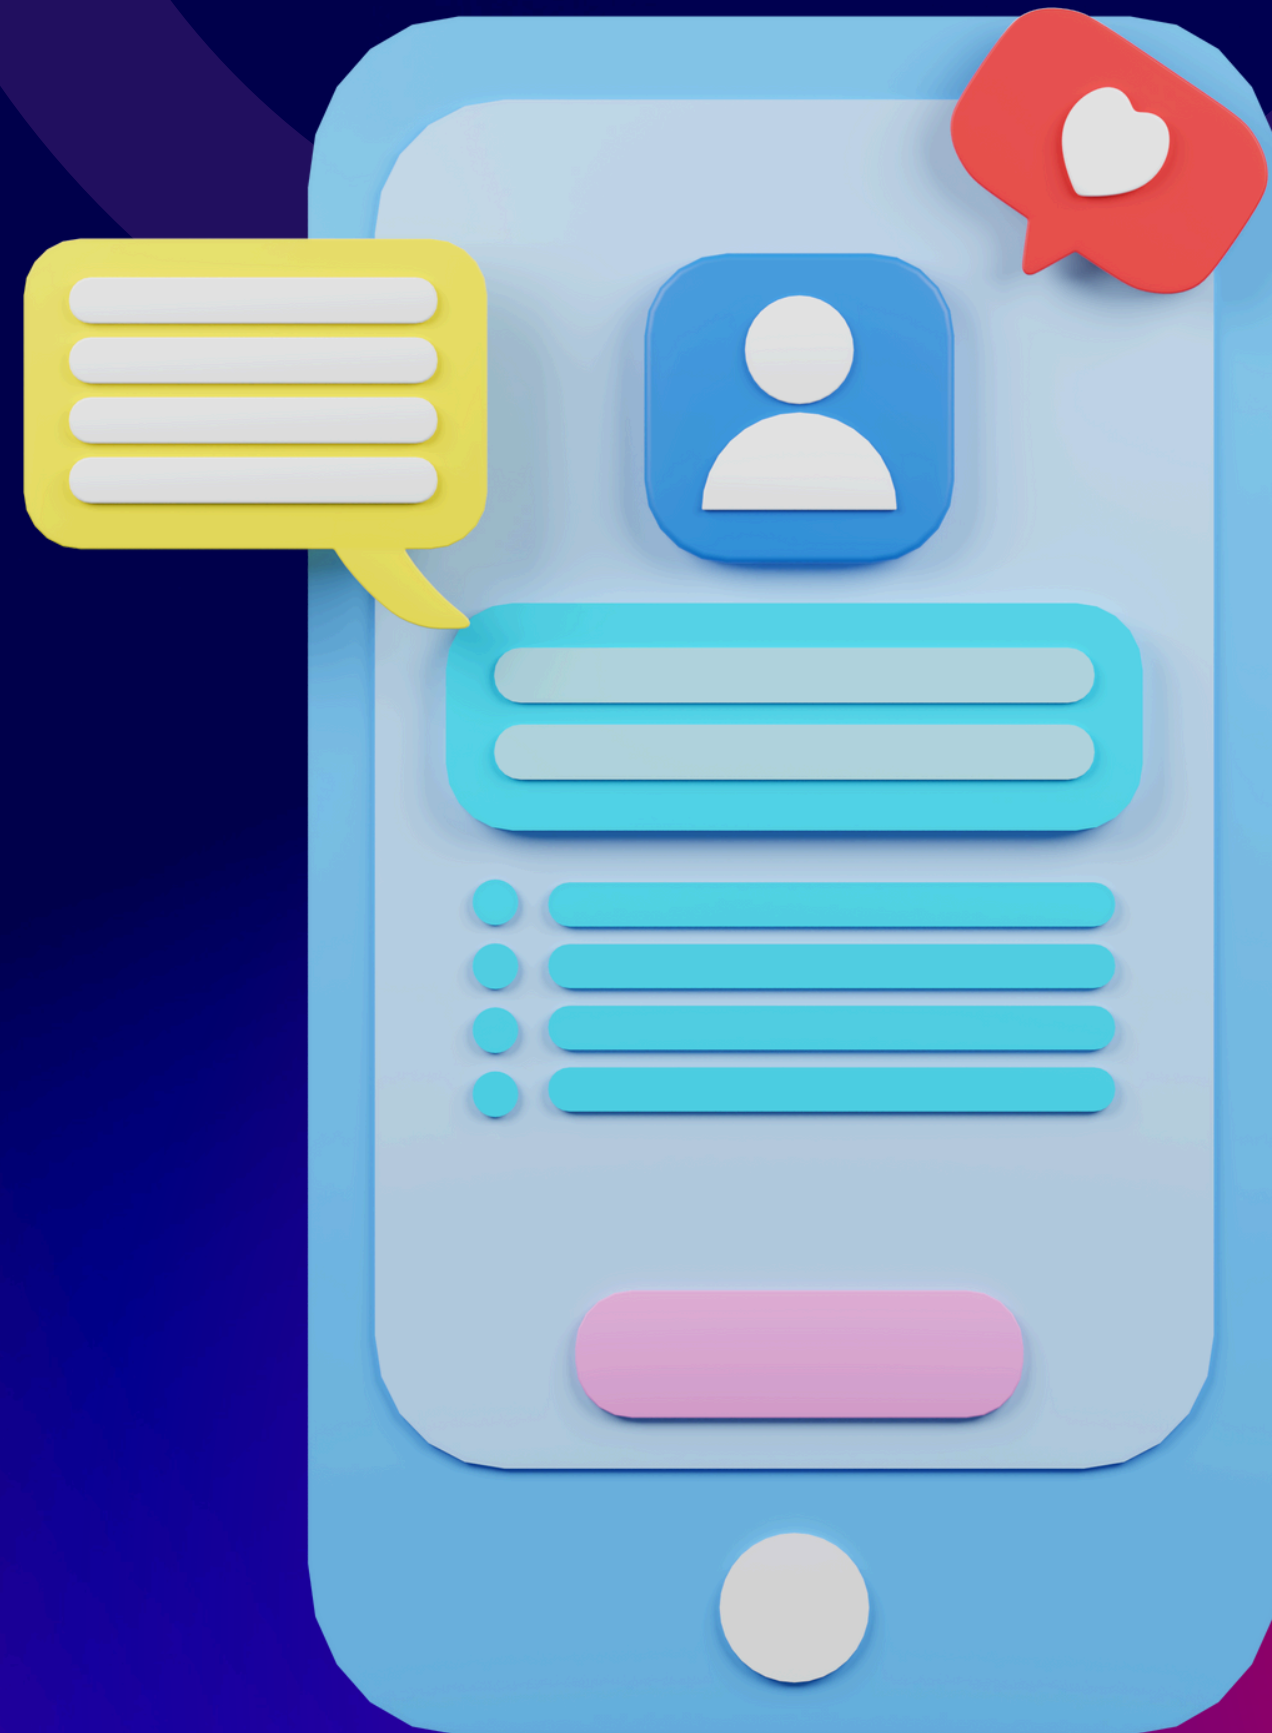

AIM

NAME'S BIRTH

- It consists in applying one's own knowledge and skills, to have a better awareness in deepening the expositions and written tests;

- "MindUp" symbolizes the improvement and elevation of mental abilities, as if the mind "rises" towards new possibilities.

QUIZ

- Select a subject;
- Select a topic;
- Small explanation;
- Multiple-choice questions and true or false.

INTERACTIVE EXPOSITION

WITH AI

- Present the topic orally;
- Receive positive or negative feedback from the IA;
- Positive feedback: percentage prize;
- Negative feedback: explanation of error;
- Unlimited number of exposition.

AWARDS

- 0 - 15%: 2 gems
- 20 - 40%: 4 gems
- 45 - 60%: 6 gems
- 65 - 80%: 8 gems
- 85 - 95%: 10 gems
- 96 - 100%: 1 trophy

DATA SETTINGS

- Train the AI;
- The creator enters questions and answers manually;
- The creator tests the app before publication.

THANKS

We thank the school for giving us this opportunity and the DigiEduHack project staff for welcoming us and supporting us during this journey.

Finally, we thank our teachers and our head teacher for supporting us in this adventure.
