Your courses

- Dynamic Programming**
Lorem ipsum dolor 65%
- Strings Theory**
Lorem ipsum dolor 65%
- Graph Theory**
Lorem ipsum dolor 65%

Accomplishments

Number Theory	20 Sep, 2021	95.00 out of 100	Successfully completed
Greedy Algorithms	20 Sep, 2021	87.25 out of 100	Completed
Data structures	20 Sep, 2021	95.00 out of 100	Successfully completed
Algorithms	20 Sep, 2021	49.5 out of 50	Successfully completed

Statistics

Courses completed: **10**

Courses in progress: **3**

How it works

1. Login /register to the website
 2. Select courses that you want, and start learning them
 3. As a teacher, you can post courses over the Internet, and earn money!
 4. Participate in competitions and solve problems, gain XP and valuable gifts
- 

Target Audience

Talented students

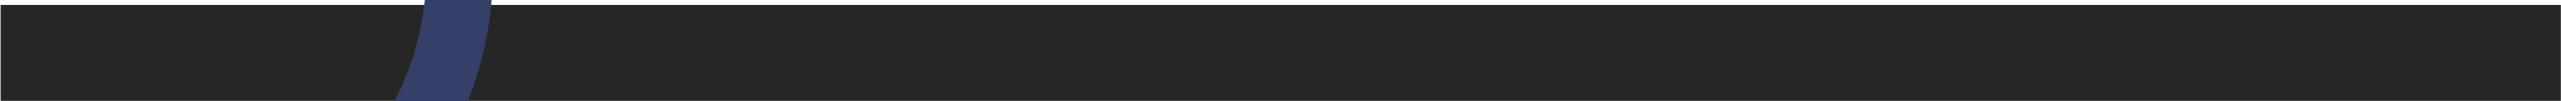

Interested students

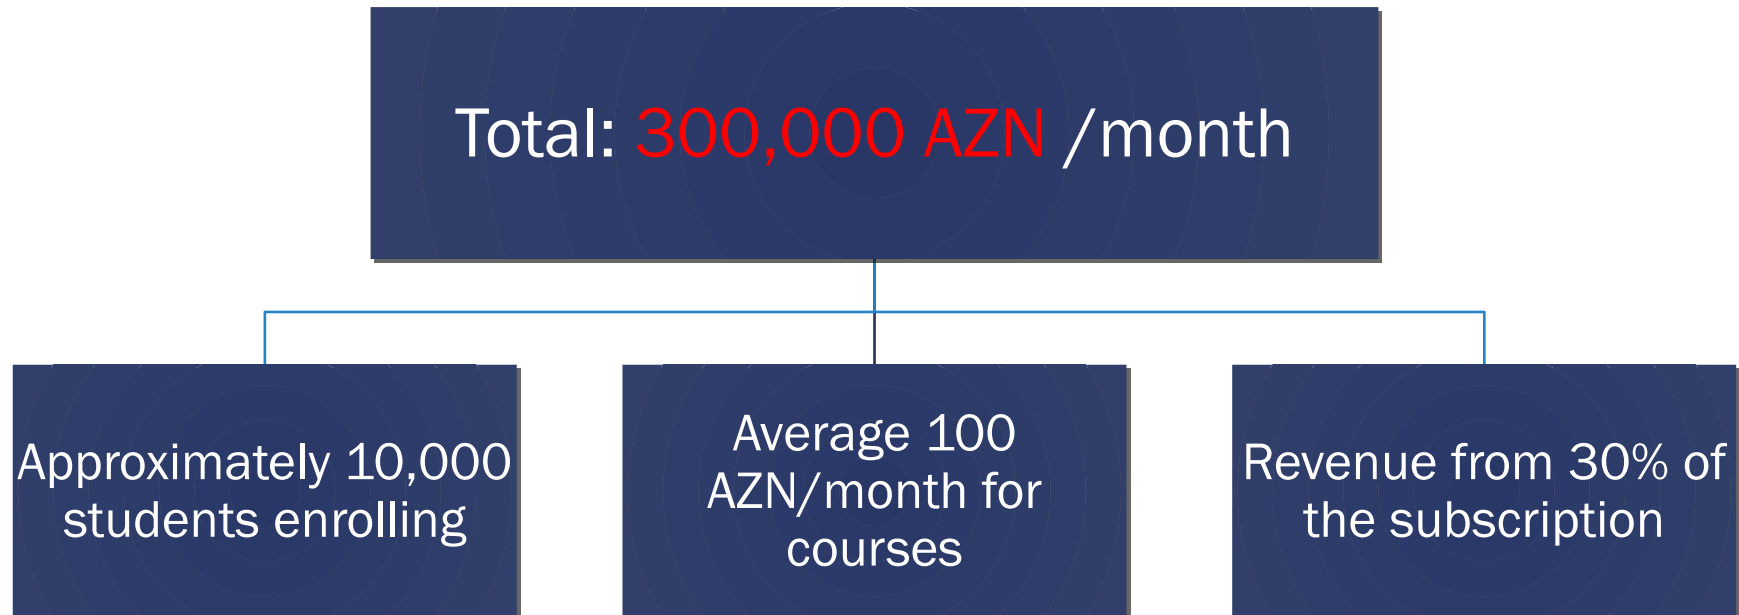

Students who wants to study abroad

Fact

- There are **39.6 million** secondary school students in European Union
 - It is **614 million** for the entire world, which are our potential customers!
- 
- 
- 

Business Plan (Local)

Business Plan (EU)

Total: **17.8 million** \$/month

Assume 3% of secondary school students subscribe

Average course costs 50\$/month

Revenue from 30% of subscription

Go-to Market Plan

Competitions with valuable gifts

Several free lessons for newbie users

Financial aid based on XP and social background

Earning from having a particular percent of the subscription
