Solve a problem with the problem
How is it possible?

THE PROBLEM

Fewer and fewer teens are attracted from books.
The results of using too much technology are difficulties in developing attention and critical thinking.

SOLUTION
SERVICE

- ## Open LAIbrary

 **The open 1AIbrary app uses the best of technology to find new ways to get young people in the world of reading.**

- ## How ?

  This app suggests suitable readings to users thanks to AI through a questionnaire, helps and motivates through missions and rewards.

Target and Impact

This app is aimed at the entire community, especially teens.

Our idea is a revolution in reading that combines study and fun for personal and social enrichment.

OPEN LAIBRARY

Innovatibility

The most engaging part?
The challenges! You can compete with your friends by reading a certain number of pages.

Transferability

It can be applied in all areas:

- school
- free time
- work

Sustainability

The app's challenge promotes reading , creating a community and breaking down socioeconomic and cultural barriers.
