

# Angels a Almothers

A system solution from people from practice.

How to help an ordinary Slovak teacher solve daily problems with the use of AI?

**VYSKÚŠAJ  
AJ AI**

**I'm burned out  
and I can't  
handle it**

**I have a lot of  
integrated  
students and  
no assistant**

**Lessons are  
exploding and  
my kids are  
jumping on my  
head**

**The smart ones  
are bored**

**I don't have time  
to cover the  
curriculum**

If we want to close the digital divide in education...  
... We need to address  
basic PAINS AND BARRIERS of our teachers, otherwise they will only  
remain at their level

**If AI really is for everyone...**

**Up to 3 years 50k teachers**

**min 80%**

**of all primary + secondary**

**school teachers**

# Channels

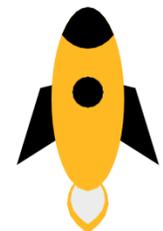

## 3 AI ANGELS AT SCHOOL

Direct assistance in the manner of a digital coordinator.  
It can be the SDK, a teacher, a member of the management, an active student.

## RCPU AND SYNERGIES

Let's get in touch with those who are already doing some of this.  
RCPU, DOFE, Informatics 2.0, supervisors and others

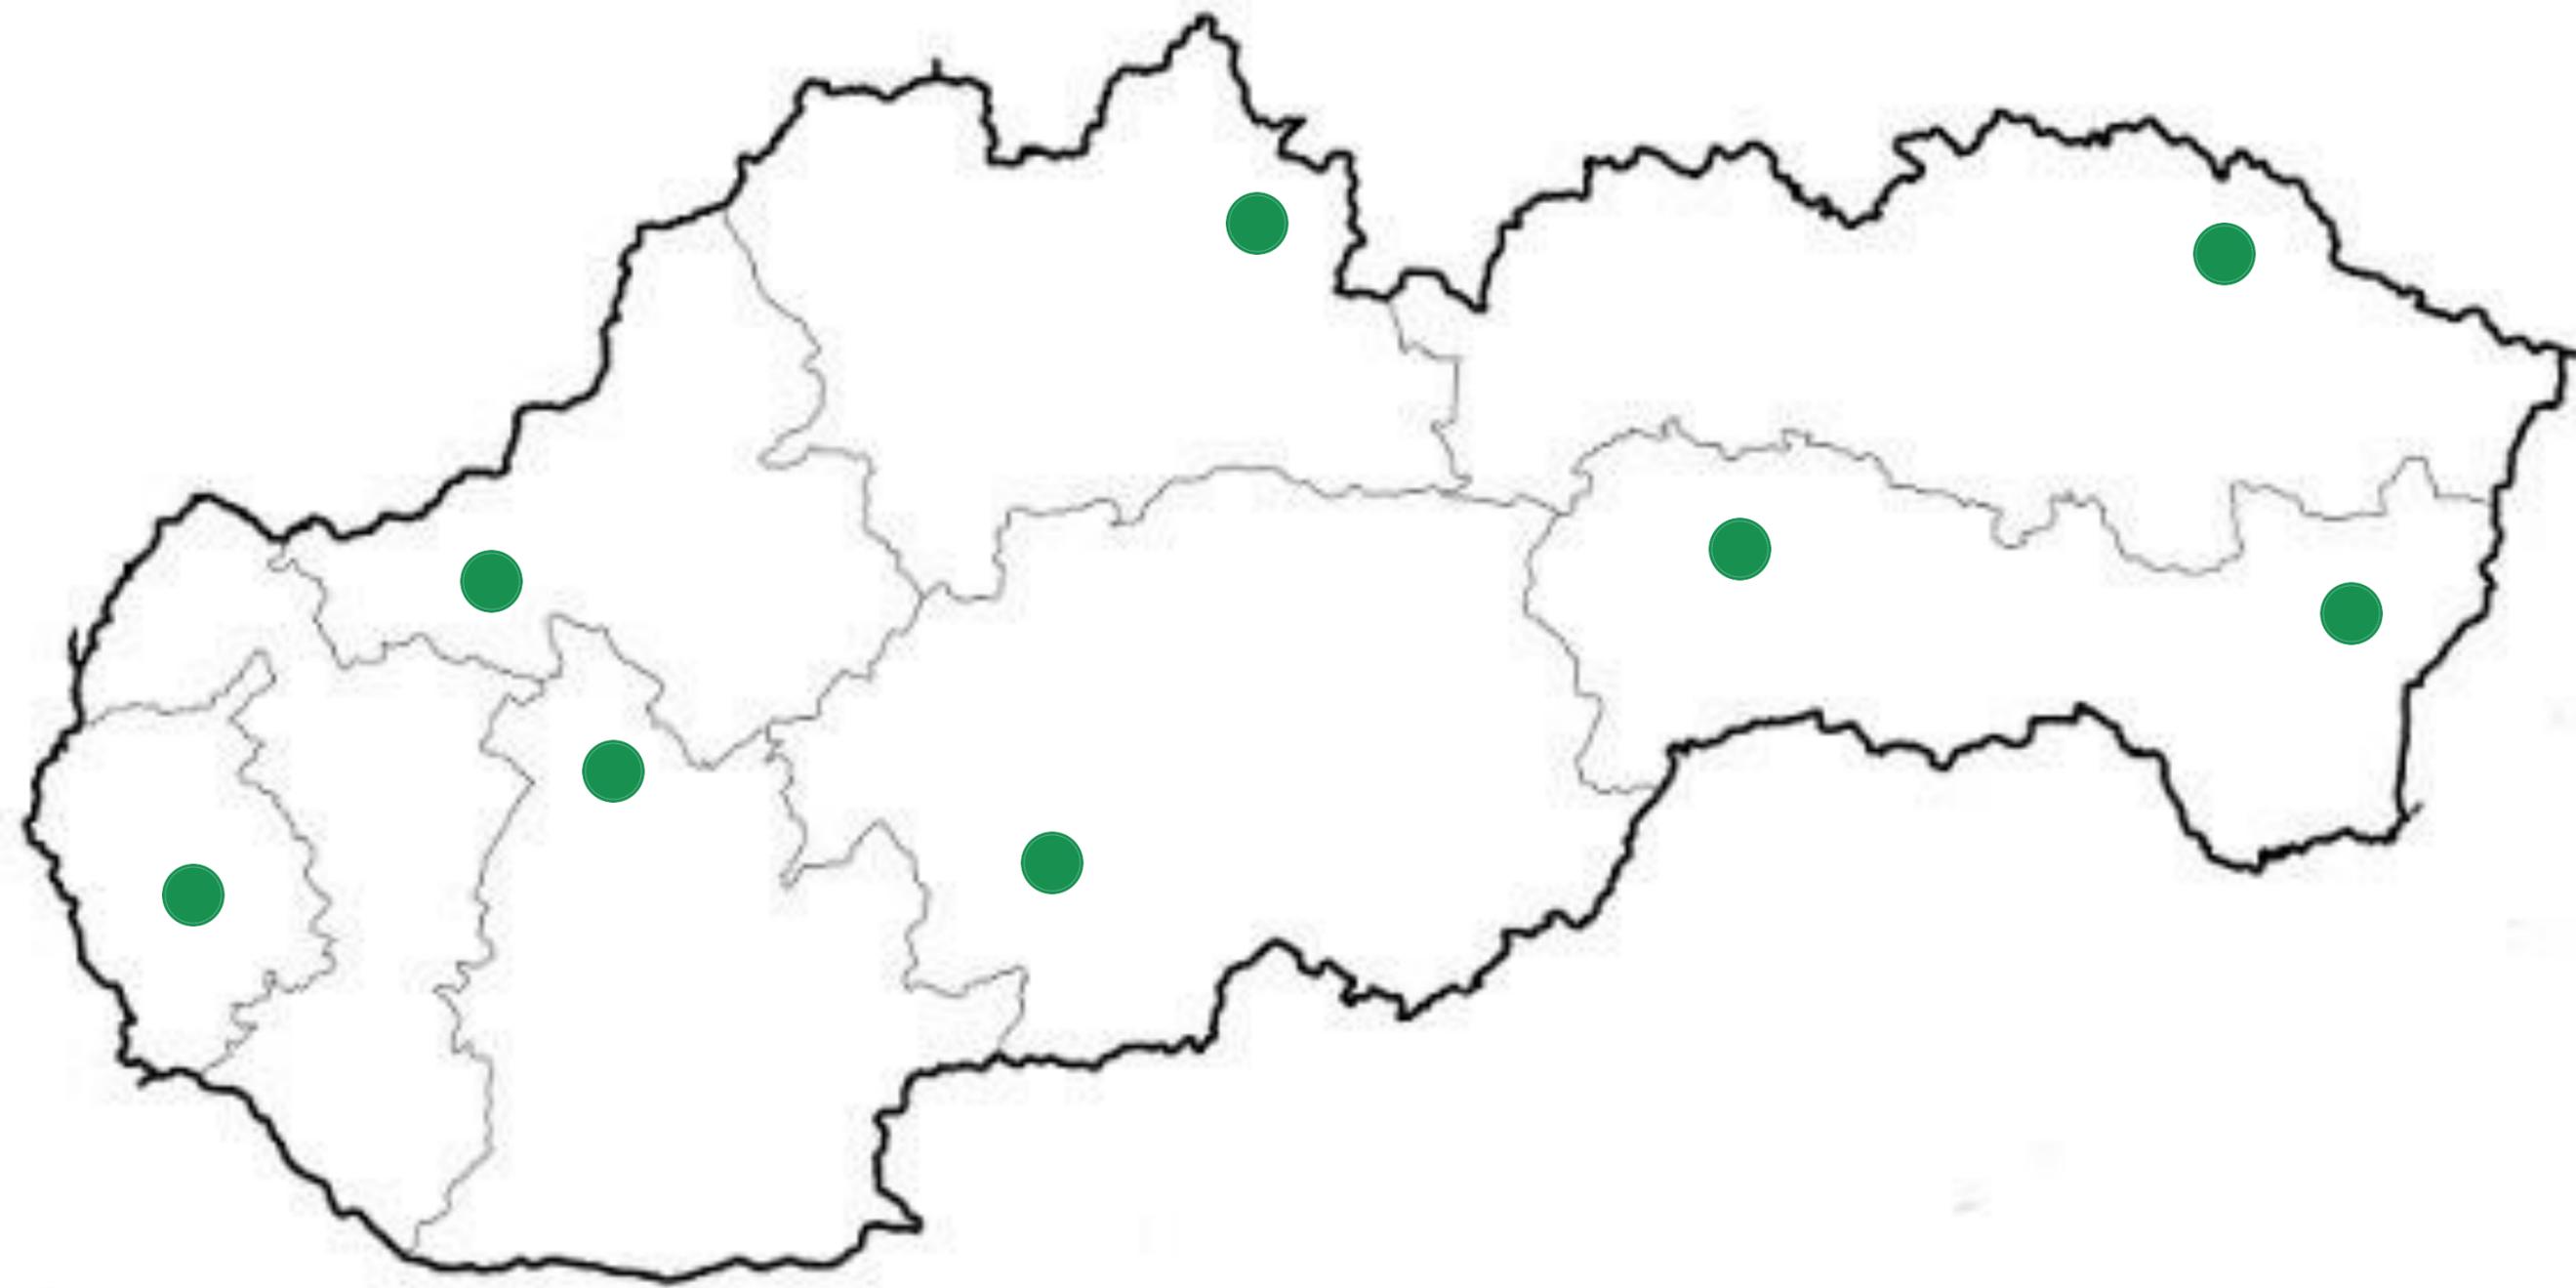

## INTERVENTION TEAM

Mentors who start behind schools where they haven't started with AI or don't even know how to start.

# Segmentation and benchmarks

15%	Min 80% of the school works with AI	AI basecamp
34%	Organically brings examples of good practice	AI basecamp
51%	Min. 50% of them positive trend	mentors at the school are making a difference

**Number of successful green, yellow and red  
/number of schools in the milestone**

innovations

The best solution is not  
the most original.

It is a **systemic change that  
counts on everyone.**
