

# TISCO (by AI)

## NEW WAY OF TEACHING

# ABOUT US

we are a group of young students that believe that AI technology could be the right way to improve the studying process in high schools.

# GOAL

Our main goal is to help students in their studying process and time management

AI

We can do that using artificial intelligence to generate personalized daily plans

# OUR VISION

Tisco's vision is to globally enhance students' learning experience by promoting responsibility and organization to optimize their educational journey.

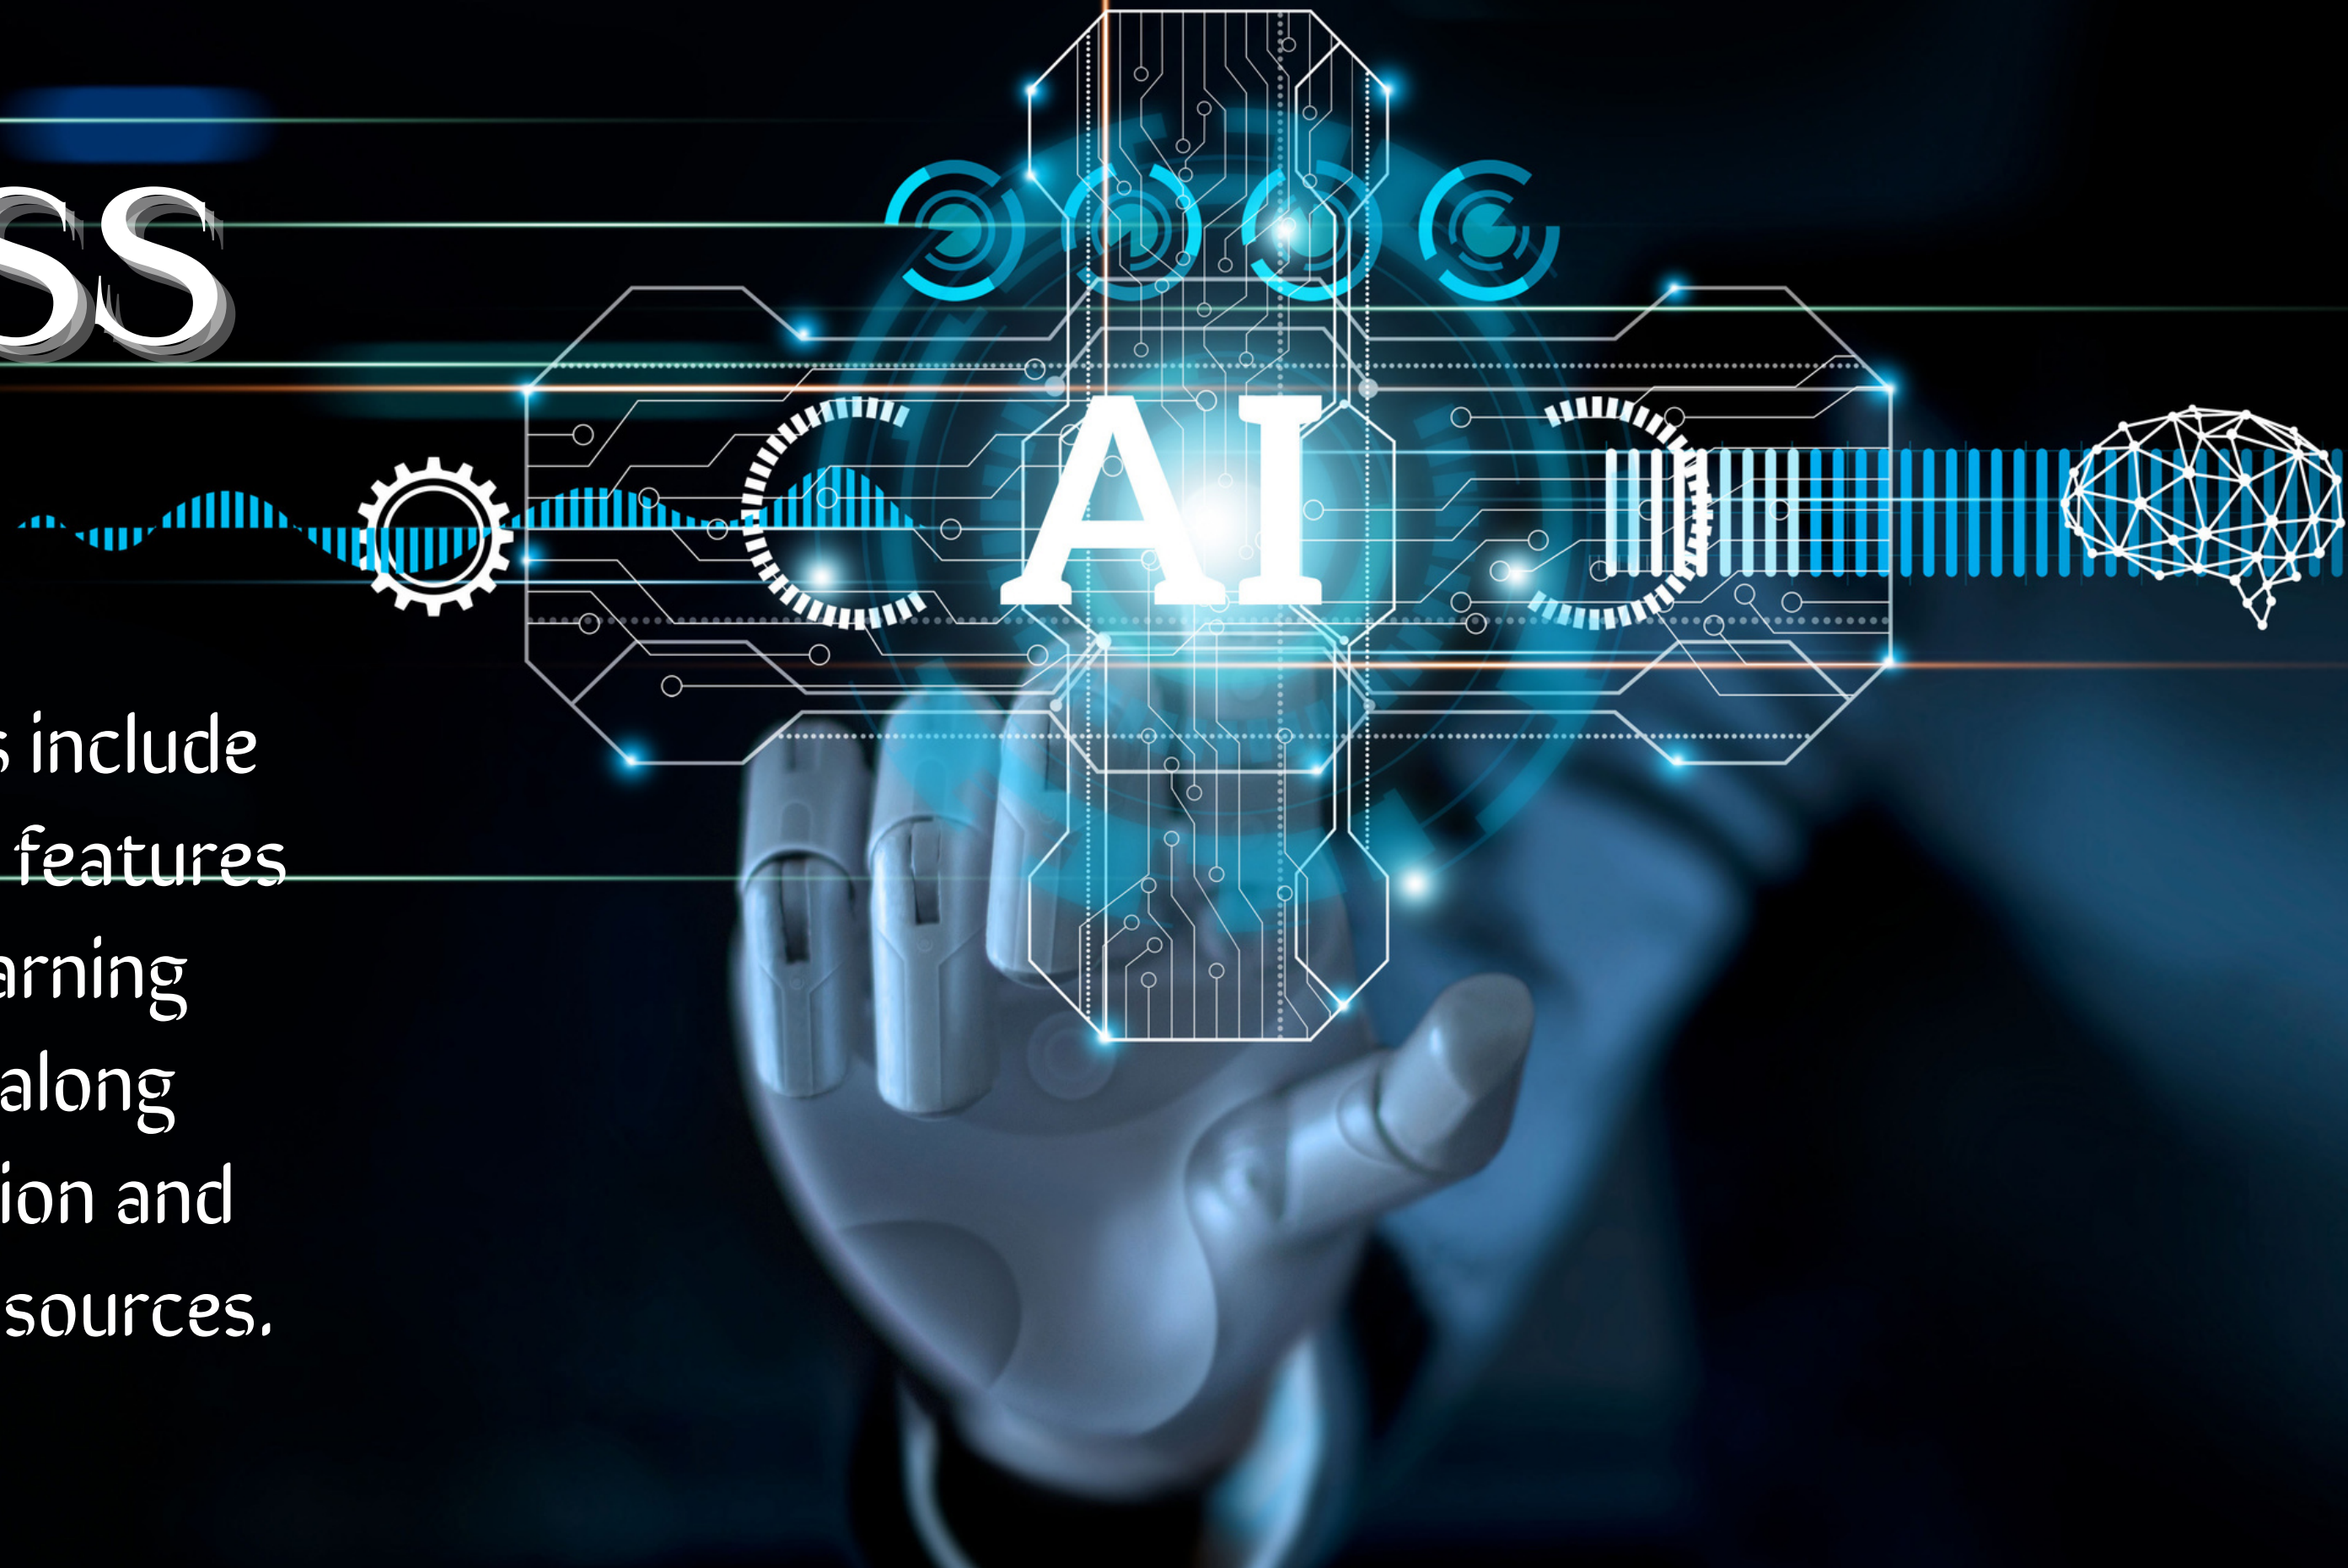

# OUR MISSION

The mission of Tisco is to simplify and enhance the time and study activity management of students aged 14 to 18, providing advanced tools such as automatic summarization and access to educational resources, thus promoting efficient and effective learning.

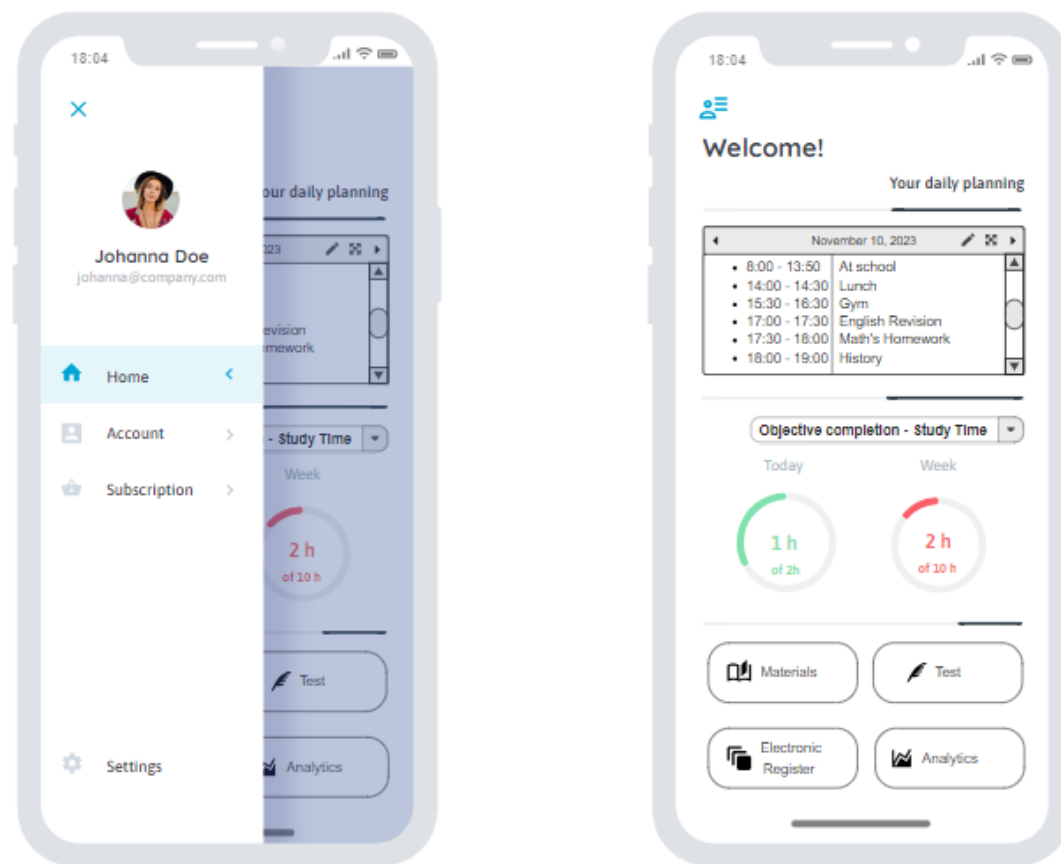

# PROCESS

Tisco's future directions include implementing advanced features to enhance students' learning and time management, along with geographic expansion and enriching educational resources.
