

mAlndhand PEN

THE PEN THAT FOLLOWS THE MIND AND
HELPS THE HAND

[nome del presentatore qui]

ESPERTO DI SCRITTURA

THE PROBLEM THAT GAVE RISE TO OUR IDEA

loss of handwriting because of computers
spelling problems

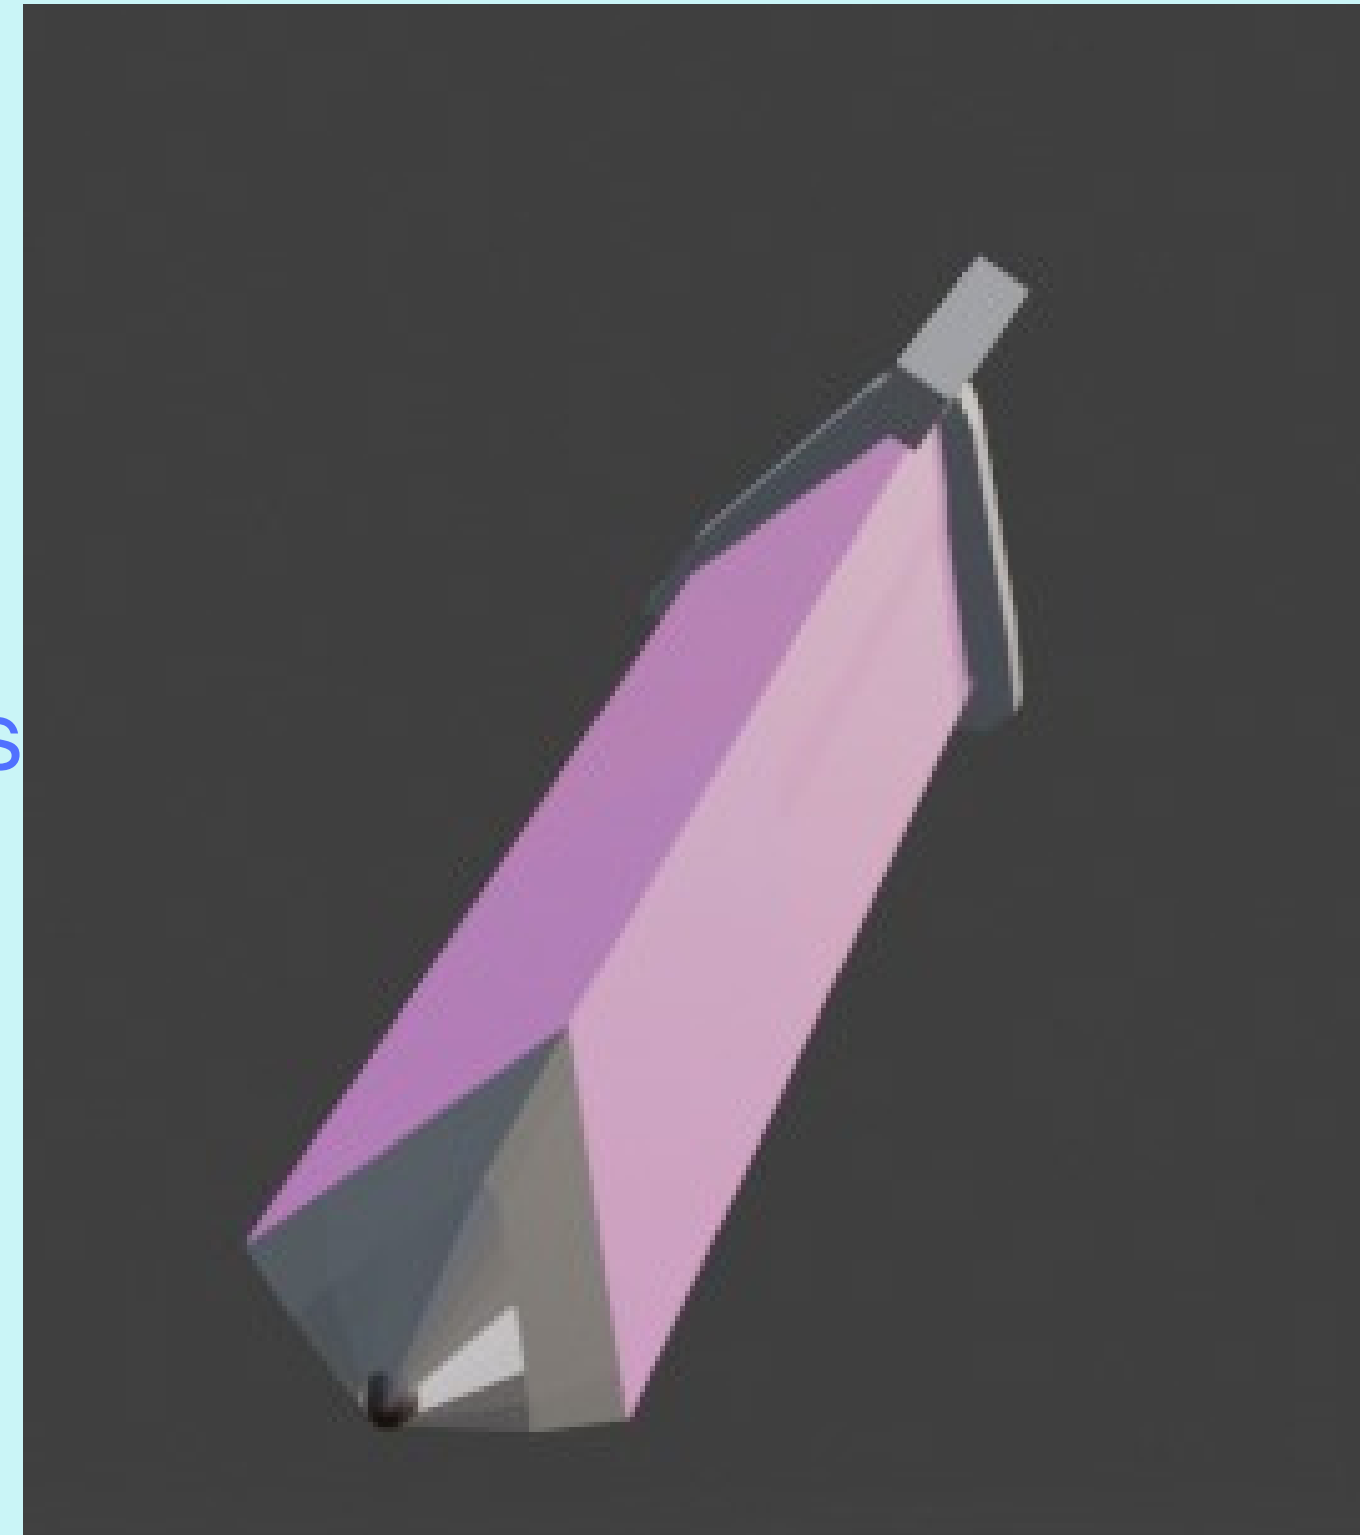

THE SOLUTION

OUR PEN!

It's synchronized with an app

In which there is AI
that customize the
mechanisms

creates specific texts
understands our language

SUSTAINABILITY

the pen is made with
bio plastic

TRANSFERABILITY

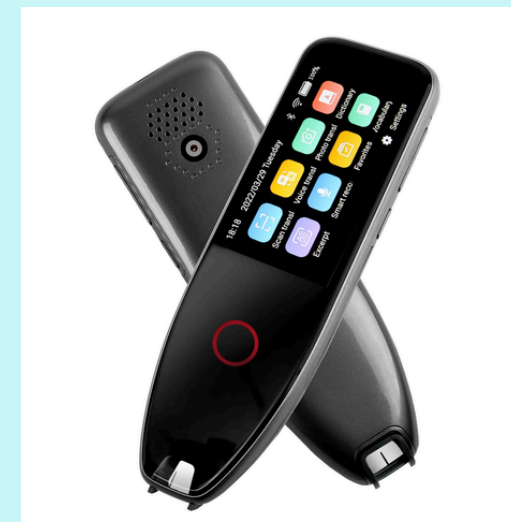

everyone can use this
pen because it has
specific three-sided
ergonomics

It is specifically
designed for people
with dysgraphia,
dyslexia and
foreigners.

INNOVATIVENESS

There are no
similar pens on the
market

we can, for
example, see
translator pens
but nothing like our
invention
