

DigiEduHack Challenge **Challenging the Foundations of** **Education**

Teachers Role

How will technology transform the role of the teacher?

Technology allows teachers to discover solutions to problems collaboratively, to push the students to be active learners and foster in them the thirst for discovery and knowledge. How to change teaching methods from teacher-centred to student-centred, from talk and s

Co-create the future of education together with us!

The Ministry of Education, Tel Aviv District and Beta School invite you to take part in DIGIEDUHACK, to crack the Learning 4.0 Challenge. The Hackathon will take place simultaneously in 18 countries, from October 3rd to October 4th (Thursday-Friday). Our event will focus on "Redesigning the Foundations of Education". Turn your vision into reality and showcase your solutions on a European and global scale. Experts and mentors will support your team during the Hackathon in finding the best solutions to the challenge. The best teams can win €5000 in a global award contest.
