

## **DigiEduHack Challenge Access and Availability**

### **Open the way for learning**

#### **Accessible technologies for disadvantaged learning groups**

How can technology be used to meet the needs of disadvantaged learning groups such as disabled students, women in rural areas, refugees, prisoners, people with chronic illnesses etc.

#### **Hackathons in Europe wide and beyond.**

The main topic is "Availability and Accessibility". The Open Education System of Anadolu University, dedicated to equal opportunity, aims to open a wide range of programs based on this principle and to offer learning environments that effectively promote these programs. This policy is predicated on the following principles: • to develop and implement policies that promote effectively equal opportunity and diversity of students, human resources and the faculty, • to ensure that all students have equal access to opportunities offered,
