

DigiEduHack Challenge Access and Availability

Usability factors of digital learning environments

What are the trends for usability factors of digital learning design?

What are the trends for usability factors of digital learning design? Trending Usability factors of accessible technologies specifically for digital native learners.

Hackathons in Europe wide and beyond.

The main topic is "Availability and Accessibility". The Open Education System of Anadolu University, dedicated to equal opportunity, aims to open a wide range of programs based on this principle and to offer learning environments that effectively promote these programs. This policy is predicated on the following principles: • to develop and implement policies that promote effectively equal opportunity and diversity of students, human resources and the faculty, • to ensure that all students have equal access to opportunities offered,
