

## DigiEduHack Solution

Foggia - Hacking University for social innovation

**Challenge: Find an innovative, sustainable and digital idea to promote our territory**

## NetBus

### NetBus

A platform and app to find all the information about public transport and we could see the success of the project with visits and downloads.

Our application can help tourists and commuters to find a method of travel.

### Team: Error 404 name not found

#### Members roles and background

Daniele Tanzi: programmer (s\_tanzi.daniele@altamuradavinvi.org)

## Solution Details

### Solution description

A platform and app to find all the information about public transport and we could see the success of the project with visits and downloads.

Our application can help tourists and commuters to find a method of travel.

### **Solution context**

the problem of finding public transport when travelling or commuting

### **Solution target group**

tourists and commuters, with an application containing all the necessary information

### **Solution impact**

Helping all people to easily find their way around by public transport

### **Solution tweet text**

The possibility to find the nearest stop of the vehicle, ticket price and where to buy it, reviews from other users and if possible the purchase online

### **Solution innovativeness**

The possibility of finding ways to move both in the city and outside, of being able to leave one's thoughts and read those of others

### **Solution transferability**

Can be transferred to telegram as a bot

### **Solution sustainability**

the sustainability of the project will depend on the advertising banners

### **Solution team work**

We have found an excellent collaboration that could continue in the future
